---

Commissioner Jacobs:

Please see the attached from Audrey Spencer-Horsley.

I hope this information is helpful.

Greg

Subject: Lobbying on the march

Item 6c:

Since there is a movement abroad to lobby us for more funds for affordable housing I would like to pull this item in order to share information with the board and public regarding what the county already does.

How much do we budget annually for reimbursement of impact fees? This is not clear from the abstract; only the current balance is indicated. Beyond that, are there additional affordable housing initiatives such as urgent home repair that we fund beyond what is supported by the federal and state governments? Can we have a total for those efforts, or are those two items the extend of our unmandated efforts?

Thanks.

Barry
