Commissioner Gordon:

In follow-up to your comments/questions:

For Item 6-h, staff concurs with the changing of the terminology "Manpower" to "Personnel" located in Section 11-B, and that the word "however" should be removed from the sentence in Section 18. Staff will incorporate these revisions into both contract versions pending Board approval of the contracts.

For Item 7-c, the Board will not receive any additional information about the technology for the Whitted Building prior to the meeting. Staff does plan to provide a comprehensive presentation at the meeting regarding proposed technology.

And, as noted earlier, Donna Baker previously responded regarding Agenda Item 11-f.

Greg

Subject: Questions/ Comments on Nov. 19 agenda

Item 6-h - Fire dept agreements
Sec. 11-B "Manpower on Scene" should be "Personnel on Scene" (gender neutral language) - in both versions of the contract.
Sec. 18 - paragraph on discrimination
In the middle of the paragraph, should the word "however" be deleted in the following sentence?
"Employees, member and applicants must however be competent....." - in both versions of the
contract.

Item 7-c - Whitted Building
Is there any additional information about the technology that the BOCC will receive before the meeting?

Item 11-f - Appoinments
Please provide a current roster for the Commission for the Environment. (We seem to have the roster for a different board.)
