The group's last meeting was in May of 2017. Time has been spent creating an RFP and preparing to publish.

Dinah announced the appointment of Commissioner Mark Dorosin to the committee. Commissioner Renee Price will remain in Commissioner McKee's place. Neither Commissioner was able to make the meeting due to scheduled meetings/engagements.

The group came together after several months of working on an RFP based on the direction of moving forward with a needs assessment for the County public safety agencies. The decision was made and voted unanimously to move forward with publishing the RFP for bidding. Reviewing cost share will be determined based upon the results received and whether this will need to wait for awarding until FY20. Responses should be received 3-4 weeks after the RFP is released. We will need to get a review committee to assess the responses and amounts. David recommended the qualifications will go in one envelope and the cost will be shared in another envelope after the bids are reviewed. The RFP can remain open for 6 months.

Next steps will be to gather a total number of emergency responders in Orange County based on discipline. David will insert that information into the RFP. David will then send out the RFP to the committee to review before posting.

No new business.
