

ACS DEMOGRAPHIC AND HOUSING ESTIMATES

Survey/Program: American Community Survey

Year: 2018

Estimates: 5-Year

Table ID: DP05

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

Some other race alone	0	+/-19	0.00%	+/-0.3
Two or more races	530	+/-322	4.70%	+/-2.8
Two races including Some other race	0	+/-19	0.00%	+/-0.3
Two races excluding Some other race, and Three or more races	530	+/-322	4.70%	+/-2.8
Total housing units	4,603	+/-272	(X)	(X)
CITIZEN, VOTING AGE POPULATION				
Citizen, 18 and over population	8,305	+/-657	8,305	(X)
Male	3,697	+/-371	44.50%	+/-3.2
Female	4,608	+/-477	55.50%	+/-3.2

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see ACS Technical Documentation). The effect of nonsampling error is not represented in these tables.

For more information on understanding race and Hispanic origin data, please see the Census 2010 Brief entitled, Overview of Race and Hispanic Origin: 2010 , issued March 2011. (pdf format)

While the 2014-2018 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An "***" entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An "-" entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution, or the margin of error associated with a median was larger than the median itself.
3. An "-" following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An "+" following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An "****" entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An "*****" entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An "N" entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An "(X)" means that the estimate is not applicable or not available.

SELECTED HOUSING CHARACTERISTICS

Survey/Program: American Community Survey

Year: 2018

Estimates: 5-Year

Table ID: DP04

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

\$2,000 to \$2,499	0	+/-19	0.00%	+/-4.1
\$2,500 to \$2,999	0	+/-19	0.00%	+/-4.1
\$3,000 or more	0	+/-19	0.00%	+/-4.1
Median (dollars)	818	+/-153	(X)	(X)
No rent paid	155	+/-114	(X)	(X)
GROSS RENT AS A PERCENTAGE OF HOUSEHOLD INCOME (GRAPI)				
Occupied units paying rent (excluding units where GRAPI cannot be computed)	844	+/-226	844	(X)
Less than 15.0 percent	167	+/-104	19.80%	+/-12.1
15.0 to 19.9 percent	79	+/-71	9.40%	+/-8.1
20.0 to 24.9 percent	149	+/-90	17.70%	+/-10.4

	Estimate	Margin of Error	Percent	Percent Margin of Error
25.0 to 29.9 percent	118	+/-126	14.00%	+/-14.3
30.0 to 34.9 percent	127	+/-104	15.00%	+/-11.9
35.0 percent or more	204	+/-125	24.20%	+/-13.3
Not computed	155	+/-114	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see ACS Technical Documentation). The effect of nonsampling error is not represented in these tables.

A processing error was found in the Year Structure Built estimates since data year 2008. For more information, please see the errata note #110 .

Households not paying cash rent are excluded from the calculation of median gross rent.

Telephone service data are not available for certain geographic areas due to problems with data collection of this question that occurred in 2015 and 2016. Both ACS 1-year and ACS 5-year files were affected. It may take several years in the ACS 5-year files until the estimates are available for the geographic areas affected.

While the 2014-2018 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An "***" entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

2. An "-" entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution, or the margin of error associated with a median was larger than the median itself.
3. An "-" following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An "+" following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An "***" entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An "*****" entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An "N" entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An "(X)" means that the estimate is not applicable or not available.

SELECTED ECONOMIC CHARACTERISTICS

Survey/Program: American Community Survey

Year: 2018

Estimates: 5-Year

Table ID: DP03

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

No health insurance coverage	106	+/-70	9.60%	+/-6.9
PERCENTAGE OF FAMILIES AND PEOPLE WHOSE INCOME IN THE PAST 12 MONTHS IS BELOW THE POVERTY LEVEL				
All families	(X)	(X)	6.60%	+/-4.5
With related children of the householder under 18 years	(X)	(X)	13.50%	+/-9.5
With related children of the householder under 5 years only	(X)	(X)	31.40%	+/-27.3
Married couple families	(X)	(X)	0.70%	+/-1.2
With related children of the householder under 18 years	(X)	(X)	2.00%	+/-3.1

	Estimate	Margin of Error	Percent	Percent Margin of Error
With related children of the householder under 5 years only	(X)	(X)	0.00%	+/-15.4
Families with female householder, no husband present	(X)	(X)	30.80%	+/-20.5
With related children of the householder under 18 years	(X)	(X)	36.50%	+/-25.5
With related children of the householder under 5 years only	(X)	(X)	80.50%	+/-37.0
All people	(X)	(X)	10.30%	+/-5.1
Under 18 years	(X)	(X)	19.90%	+/-12.1
Related children of the householder under 18 years	(X)	(X)	16.80%	+/-12.3
Related children of the householder under 5 years	(X)	(X)	33.30%	+/-21.4
Related children of the householder 5 to 17 years	(X)	(X)	9.00%	+/-9.6
18 years and over	(X)	(X)	7.50%	+/-3.2
18 to 64 years	(X)	(X)	7.80%	+/-3.6
65 years and over	(X)	(X)	6.20%	+/-4.7
People in families	(X)	(X)	7.70%	+/-5.6
Unrelated individuals 15 years and over	(X)	(X)	24.10%	+/-11.3

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see ACS Technical Documentation). The effect of nonsampling error is not represented in these tables.

Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to Labor Force Guidance .

Workers include members of the Armed Forces and civilians who were at work last week.

Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2018.

Industry codes are 4-digit codes and are based on the North American Industry Classification System (NAICS). The Census industry codes for 2018 are based on the 2017 revision of the NAICS. To allow for the creation of 2014-2018 tables, industry data in the multiyear files (2014-2018) were recoded to 2017 Census industry codes. We recommend using caution when comparing data coded using 2018 Census industry codes with data coded using Census industry codes prior to 2018. For more information on the Census industry code changes, please visit our website at <https://www.census.gov/topics/employment/industry-occupation/guidance/code-lists.html> .

Logical coverage edits applying a rules-based assignment of Medicaid, Medicare and military health coverage were added as of 2009 -- please see https://www.census.gov/library/working-papers/2010/demo/coverage_edits_final.html for more details. The 2008 data table in American FactFinder does not incorporate these edits. Therefore, the estimates that appear in these tables are not comparable to the estimates in the 2009 and later tables. Select geographies of 2008 data comparable to the 2009 and later tables are available at <https://www.census.gov/data/tables/time-series/acs/1-year-re-run-health-insurance.html> . The health insurance coverage category names were modified in 2010. See https://www.census.gov/topics/health/health-insurance/about/glossary.html#par_textimage_18 for a list of the insurance type definitions.

Beginning in 2017, selected variable categories were updated, including age-categories, income-to-poverty ratio (IPR) categories, and the age universe for certain employment and education variables. See user note entitled "Health Insurance Table Updates" for further details.

While the 2014-2018 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An "***" entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An "-" entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution, or the margin of error associated with a median was larger than the median itself.

3. An "-" following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An "+" following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An "***" entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An "*****" entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An "N" entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An "(X)" means that the estimate is not applicable or not available.

SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES

Survey/Program: American Community Survey

Year: 2018

Estimates: 5-Year

Total Civilian Noninstitutionalized Population	11,340	+/-942	11,340	(X)
With a disability	1,413	+/-318	12.50%	+/-2.8
Under 18 years	2,654	+/-474	2,654	(X)
With a disability	32	+/-36	1.20%	+/-1.3
18 to 64 years	7,028	+/-601	7,028	(X)
With a disability	764	+/-243	10.90%	+/-3.5
65 years and over	1,658	+/-214	1,658	(X)
With a disability	617	+/-165	37.20%	+/-9.2
RESIDENCE 1 YEAR AGO				
Population 1 year and over	11,215	+/-944	11,215	(X)
Same house	10,506	+/-965	93.70%	+/-2.4
Different house in the U.S.	709	+/-258	6.30%	+/-2.4
Same county	281	+/-130	2.50%	+/-1.2
Different county	428	+/-215	3.80%	+/-1.9
Same state	388	+/-216	3.50%	+/-1.9
Different state	40	+/-45	0.40%	+/-0.4
Abroad	0	+/-19	0.00%	+/-0.3
PLACE OF BIRTH				
Total population	11,358	+/-943	11,358	(X)
Native	10,841	+/-942	95.40%	+/-2.0
Born in United States	10,798	+/-938	95.10%	+/-2.1
State of residence	7,136	+/-759	62.80%	+/-4.5
Different state	3,662	+/-603	32.20%	+/-4.4
Born in Puerto Rico, U.S. Island areas, or born abroad to American parent(s)	43	+/-52	0.40%	+/-0.5
Foreign born	517	+/-229	4.60%	+/-2.0
U.S. CITIZENSHIP STATUS				
Foreign-born population	517	+/-229	517	(X)

	Estimate	Margin of Error	Percent	Percent Margin of Error
Naturalized U.S. citizen	118	+/-71	22.80%	+/-14.5
Not a U.S. citizen	399	+/-215	77.20%	+/-14.5
YEAR OF ENTRY				
Population born outside the United States	560	+/-244	560	(X)
Native	43	+/-52	43	(X)
Entered 2010 or later	0	+/-19	0.00%	+/-46.9
Entered before 2010	43	+/-52	100.00%	+/-46.9
Foreign born	517	+/-229	517	(X)
Entered 2010 or later	0	+/-19	0.00%	+/-6.5
Entered before 2010	517	+/-229	100.00%	+/-6.5
WORLD REGION OF BIRTH OF FOREIGN BORN				
Foreign-born population, excluding population born at sea	517	+/-229	517	(X)
Europe	60	+/-67	11.60%	+/-13.6
Asia	69	+/-61	13.30%	+/-12.8
Africa	0	+/-19	0.00%	+/-6.5
Oceania	0	+/-19	0.00%	+/-6.5
Latin America	388	+/-227	75.00%	+/-18.7
Northern America	0	+/-19	0.00%	+/-6.5
LANGUAGE SPOKEN AT HOME				
Population 5 years and over	10,517	+/-914	10,517	(X)
English only	9,637	+/-863	91.60%	+/-3.4
Language other than English	880	+/-376	8.40%	+/-3.4
Speak English less than "very well"	413	+/-215	3.90%	+/-2.0
Spanish	669	+/-372	6.40%	+/-3.4
Speak English less than "very well"	341	+/-195	3.20%	+/-1.8
Other Indo-European languages	96	+/-87	0.90%	+/-0.8
Speak English less than "very well"	0	+/-19	0.00%	+/-0.3
Asian and Pacific Islander languages	98	+/-101	0.90%	+/-0.9
Speak English less than "very well"	72	+/-89	0.70%	+/-0.8
Other languages	17	+/-26	0.20%	+/-0.2
Speak English less than "very well"	0	+/-19	0.00%	+/-0.3
ANCESTRY

West Indian (excluding Hispanic origin groups)	9	+/-15	0.10%	+/-0.1
COMPUTERS AND INTERNET USE				
Total households	4,227	+/-310	4,227	(X)
With a computer	3,823	+/-298	90.40%	+/-3.4
With a broadband Internet subscription	3,579	+/-297	84.70%	+/-3.6

In 2016, changes were made to the computer and Internet use questions, involving the wording as well as the response options. A crosswalk was used to map pre-2016 data to the post-2016 categories, enabling creation of 5-year data. For more detailed information about the 2016 changes, see the 2016 American Community Survey Content Test Report for Computer and Internet Use located at <https://www.census.gov/programs-surveys/acs/methodology/content-test.htm> or the user note regarding changes in the 2016 questions located at <https://www.census.gov/programs-surveys/acs/technical-documentation/user-notes.html> . For more detailed information about the crosswalk, see the user note regarding the crosswalk located at <https://www.census.gov/programs-surveys/acs/technical-documentation/user-notes.html> .

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see ACS Technical Documentation). The effect of nonsampling error is not represented in these tables.

Ancestry listed in this table refers to the total number of people who responded with a particular ancestry; for example, the estimate given for Russian represents the number of people who listed Russian as either their first or second ancestry. This table lists only the largest ancestry groups; see the Detailed Tables for more categories. Race and Hispanic origin groups are not included in this table because official data for those groups come from the Race and Hispanic origin questions rather than the ancestry question (see Demographic Table).

Data for year of entry of the native population reflect the year of entry into the U.S. by people who were born in Puerto Rico, U.S. Island Areas or born outside the U.S. to a U.S. citizen parent and who subsequently moved to the U.S.

Methodological changes to citizenship edits may have affected citizenship data for those born in American Samoa. Users should be aware of these changes when using 2018 data or multi-year data containing data from 2018. For more information, see: American Samoa Citizenship User Note.

The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Accordingly, comparisons of disability data from 2008 or later with data from prior years are not recommended. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the Evaluation Report Covering Disability .

Data about computer and Internet use were collected by asking respondents to select "Yes" or "No" to each type of computer and each type of Internet subscription. Therefore, respondents were able to select more than one type of computer and more than one type of Internet subscription.

The category "with a broadband Internet subscription" refers to those who said "Yes" to at least one of the following types of Internet subscriptions: Broadband such as cable, fiber optic, or DSL; a cellular data plan; satellite; or a fixed wireless subscription.

An Internet "subscription" refers to a type of service that someone pays for to access the Internet such as a cellular data plan, broadband such as cable, fiber optic or DSL, or other type of service. This will normally refer to a service that someone is billed for directly for Internet alone or sometimes as part of a bundle.

"With a computer" includes those who said "Yes" to at least one of the following types of computers: Desktop or laptop; smartphone; tablet or other portable wireless computer; or some other type of computer.

While the 2014-2018 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An "***" entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An "-" entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution, or the margin of error associated with a median was larger than the median itself.
3. An "-" following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An "+" following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An "****" entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An "*****" entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An "N" entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An "(X)" means that the estimate is not applicable or not available.
