

# ACS DEMOGRAPHIC AND HOUSING ESTIMATES

Survey/Program: American Community Survey

Year: 2018

Estimates: 5-Year

Table ID: DP05

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

Two or more races	85	+/-63	1.20%	+/-0.9
Two races including Some other race	19	+/-31	0.30%	+/-0.4
Two races excluding Some other race, and Three or more races	66	+/-52	0.90%	+/-0.7
Total housing units	3,098	+/-225	(X)	(X)
<b>CITIZEN, VOTING AGE POPULATION</b>				
Citizen, 18 and over population	4,865	+/-403	4,865	(X)
Male	2,320	+/-265	47.70%	+/-3.6
Female	2,545	+/-268	52.30%	+/-3.6

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see ACS Technical Documentation ). The effect of nonsampling error is not represented in these tables.

For more information on understanding race and Hispanic origin data, please see the Census 2010 Brief entitled, Overview of Race and Hispanic Origin: 2010 , issued March 2011. (pdf format)

While the 2014-2018 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

#### Explanation of Symbols:

1. An "\*\*\*" entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An "-" entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution, or the margin of error associated with a median was larger than the median itself.
3. An "-" following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An "+" following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An "\*\*\*\*" entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An "\*\*\*\*\*" entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An "N" entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An "(X)" means that the estimate is not applicable or not available.

# SELECTED HOUSING CHARACTERISTICS

**Survey/Program:** American Community Survey

**Year:** 2018

**Estimates:** 5-Year

**Table ID:** DP04

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

\$3,000 or more	0	+/-17	0.00%	+/-10.0
Median (dollars)	1,011	+/-114	(X)	(X)
No rent paid	45	+/-40	(X)	(X)
<b>GROSS RENT AS A PERCENTAGE OF HOUSEHOLD INCOME (GRAPI)</b>				
Occupied units paying rent (excluding units where GRAPI cannot be computed)	333	+/-106	333	(X)
Less than 15.0 percent	28	+/-33	8.40%	+/-10.0
15.0 to 19.9 percent	48	+/-43	14.40%	+/-12.3
20.0 to 24.9 percent	153	+/-88	45.90%	+/-19.6

	Estimate	Margin of Error	Percent	Percent Margin of Error
25.0 to 29.9 percent	12	+/-21	3.60%	+/-6.3
30.0 to 34.9 percent	47	+/-43	14.10%	+/-11.8
35.0 percent or more	45	+/-32	13.50%	+/-9.3
Not computed	45	+/-40	(X)	(X)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see ACS Technical Documentation ). The effect of nonsampling error is not represented in these tables.

A processing error was found in the Year Structure Built estimates since data year 2008. For more information, please see the errata note #110 .

Households not paying cash rent are excluded from the calculation of median gross rent.

Telephone service data are not available for certain geographic areas due to problems with data collection of this question that occurred in 2015 and 2016. Both ACS 1-year and ACS 5-year files were affected. It may take several years in the ACS 5-year files until the estimates are available for the geographic areas affected.

While the 2014-2018 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

#### Explanation of Symbols:

1. An "\*\*\*" entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

2. An "-" entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution, or the margin of error associated with a median was larger than the median itself.
3. An "-" following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An "+" following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An "\*\*\*" entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An "\*\*\*\*\*" entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An "N" entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An "(X)" means that the estimate is not applicable or not available.

# SELECTED ECONOMIC CHARACTERISTICS

**Survey/Program:** American Community Survey

**Year:** 2018

**Estimates:** 5-Year

**Table ID:** DP03

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

All people	(X)	(X)	9.60%	+/-4.0
Under 18 years	(X)	(X)	17.50%	+/-11.1
Related children of the householder under 18 years	(X)	(X)	17.50%	+/-11.1
Related children of the householder under 5 years	(X)	(X)	23.30%	+/-22.8
Related children of the householder 5 to 17 years	(X)	(X)	16.20%	+/-11.1
18 years and over	(X)	(X)	7.30%	+/-2.6
18 to 64 years	(X)	(X)	7.10%	+/-3.0
65 years and over	(X)	(X)	7.80%	+/-4.1
People in families	(X)	(X)	8.50%	+/-4.6
Unrelated individuals 15 years and over	(X)	(X)	15.70%	+/-8.4

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see ACS Technical Documentation ). The effect of nonsampling error is not represented in these tables.

Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to Labor Force Guidance .

Workers include members of the Armed Forces and civilians who were at work last week.

Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2018.

Industry codes are 4-digit codes and are based on the North American Industry Classification System (NAICS). The Census industry codes for 2018 are based on the 2017 revision of the NAICS. To allow for the creation of 2014-2018 tables, industry data in the multiyear files (2014-2018) were recoded to 2017 Census industry codes. We recommend using caution when comparing data coded using 2018 Census industry codes with data coded using Census industry codes prior to 2018. For more information on the Census industry code changes, please visit our website at <https://www.census.gov/topics/employment/industry-occupation/guidance/code-lists.html> .

Logical coverage edits applying a rules-based assignment of Medicaid, Medicare and military health coverage were added as of 2009 -- please see [https://www.census.gov/library/working-papers/2010/demo/coverage\\_edits\\_final.html](https://www.census.gov/library/working-papers/2010/demo/coverage_edits_final.html) for more details. The 2008 data table in American FactFinder does not incorporate these edits. Therefore, the estimates that appear in these tables are not comparable to the estimates in the 2009 and later tables. Select geographies of 2008 data comparable to the 2009 and later tables are available at <https://www.census.gov/data/tables/time-series/acs/1-year-re-run-health-insurance.html> . The health insurance coverage category names were modified in 2010. See [https://www.census.gov/topics/health/health-insurance/about/glossary.html#par\\_textimage\\_18](https://www.census.gov/topics/health/health-insurance/about/glossary.html#par_textimage_18) for a list of the insurance type definitions.

Beginning in 2017, selected variable categories were updated, including age-categories, income-to-poverty ratio (IPR) categories, and the age universe for certain employment and education variables. See user note entitled "Health Insurance Table Updates" for further details.

While the 2014-2018 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

#### Explanation of Symbols:

1. An "\*\*\*" entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An "-" entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution, or the margin of error associated with a median was larger than the median itself.

3. An "-" following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An "+" following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An "\*\*\*" entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An "\*\*\*\*\*" entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An "N" entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An "(X)" means that the estimate is not applicable or not available.

# SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES

**Survey/Program:** American Community Survey

**Year:** 2018

**Estimates:** 5-Year

**Table ID:** DP02

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

<b>DISABILITY STATUS OF THE CIVILIAN NONINSTITUTIONALIZED POPULATION</b>				
Total Civilian Noninstitutionalized Population	7,218	+/-602	7,218	(X)
With a disability	625	+/-182	8.70%	+/-2.5
Under 18 years	1,651	+/-344	1,651	(X)
With a disability	15	+/-26	0.90%	+/-1.5
18 to 64 years	4,331	+/-441	4,331	(X)
With a disability	457	+/-165	10.60%	+/-3.7
65 years and over	1,236	+/-171	1,236	(X)
With a disability	153	+/-78	12.40%	+/-5.9
<b>RESIDENCE 1 YEAR AGO</b>				
Population 1 year and over	7,173	+/-604	7,173	(X)
Same house	6,806	+/-645	94.90%	+/-2.5
Different house in the U.S.	367	+/-174	5.10%	+/-2.5
Same county	101	+/-87	1.40%	+/-1.2
Different county	266	+/-150	3.70%	+/-2.2
Same state	188	+/-133	2.60%	+/-1.9
Different state	78	+/-67	1.10%	+/-1.0
Abroad	0	+/-17	0.00%	+/-0.5
<b>PLACE OF BIRTH</b>				
Total population	7,218	+/-602	7,218	(X)
Native	5,632	+/-541	78.00%	+/-5.4
Born in United States	5,584	+/-549	77.40%	+/-5.4
State of residence	3,345	+/-481	46.30%	+/-5.4
Different state	2,239	+/-328	31.00%	+/-4.4
Born in Puerto Rico, U.S. Island areas, or born abroad to American parent(s)	48	+/-53	0.70%	+/-0.8
Foreign born	1,586	+/-436	22.00%	+/-5.4
<b>U.S. CITIZENSHIP STATUS</b>				
Foreign-born population	1,586	+/-436	1,586	(X)

	Estimate	Margin of Error	Percent	Percent Margin of Error
Naturalized U.S. citizen	705	+/-345	44.50%	+/-15.6
Not a U.S. citizen	881	+/-304	55.50%	+/-15.6
<b>YEAR OF ENTRY</b>				
Population born outside the United States	1,634	+/-435	1,634	(X)
Native	48	+/-53	48	(X)
Entered 2010 or later	0	+/-17	0.00%	+/-44.4
Entered before 2010	48	+/-53	100.00%	+/-44.4
Foreign born	1,586	+/-436	1,586	(X)
Entered 2010 or later	326	+/-201	20.60%	+/-9.3
Entered before 2010	1,260	+/-310	79.40%	+/-9.3
<b>WORLD REGION OF BIRTH OF FOREIGN BORN</b>				
Foreign-born population, excluding population born at sea	1,586	+/-436	1,586	(X)
Europe	169	+/-113	10.70%	+/-7.2
Asia	156	+/-117	9.80%	+/-7.0
Africa	0	+/-17	0.00%	+/-2.2
Oceania	20	+/-46	1.30%	+/-2.9
Latin America	1,232	+/-402	77.70%	+/-9.6
Northern America	9	+/-14	0.60%	+/-0.9
<b>LANGUAGE SPOKEN AT HOME</b>				
Population 5 years and over	6,909	+/-580	6,909	(X)
English only	5,225	+/-512	75.60%	+/-5.7
Language other than English	1,684	+/-451	24.40%	+/-5.7
Speak English less than "very well"	843	+/-269	12.20%	+/-3.6
Spanish	1,506	+/-453	21.80%	+/-5.7
Speak English less than "very well"	777	+/-262	11.20%	+/-3.5
Other Indo-European languages	146	+/-119	2.10%	+/-1.7
Speak English less than "very well"	66	+/-75	1.00%	+/-1.1
Asian and Pacific Islander languages	32	+/-52	0.50%	+/-0.8
Speak English less than "very well"	0	+/-17	0.00%	+/-0.5
Other languages	0	+/-17	0.00%	+/-0.5
Speak English less than "very well"	0	+/-17	0.00%	+/-0.5
<b>ANCESTRY</b>				
Total population	7,218	+/-602	7,218	(X)
American	690	+/-239	9.60%	+/-3.2
Arab	0	+/-17	0.00%	+/-0.5
Czech	0	+/-17	0.00%	+/-0.5
Danish	0	+/-17	0.00%	+/-0.5
Dutch	15	+/-24	0.20%	+/-0.3
English	550	+/-151	7.60%	+/-2.2
French (except Basque)	197	+/-131	2.70%	+/-1.8
French Canadian	55	+/-51	0.80%	+/-0.7
German	584	+/-239	8.10%	+/-3.2
Greek	0	+/-17	0.00%	+/-0.5

	Estimate	Margin of Error	Percent	Percent Margin of Error
Hungarian	28	+/-31	0.40%	+/-0.4
Irish	511	+/-143	7.10%	+/-2.0
Italian	126	+/-87	1.70%	+/-1.2
Lithuanian	38	+/-54	0.50%	+/-0.7
Norwegian	79	+/-64	1.10%	+/-0.9
Polish	110	+/-70	1.50%	+/-0.9
Portuguese	0	+/-17	0.00%	+/-0.5
Russian	77	+/-95	1.10%	+/-1.3
Scotch-Irish	290	+/-139	4.00%	+/-1.9
Scottish	186	+/-160	2.60%	+/-2.3
Slovak	18	+/-28	0.20%	+/-0.4
Subsaharan African	24	+/-31	0.30%	+/-0.4
Swedish	135	+/-77	1.90%	+/-1.1
Swiss	59	+/-59	0.80%	+/-0.8
Ukrainian	58	+/-61	0.80%	+/-0.8
Welsh	24	+/-28	0.30%	+/-0.4
West Indian (excluding Hispanic origin groups)	69	+/-93	1.00%	+/-1.3
<b>COMPUTERS AND INTERNET USE</b>				
Total households	2,904	+/-233	2,904	(X)
With a computer	2,660	+/-232	91.60%	+/-3.5
With a broadband Internet subscription	2,570	+/-241	88.50%	+/-4.1

In 2016, changes were made to the computer and Internet use questions, involving the wording as well as the response options. A crosswalk was used to map pre-2016 data to the post-2016 categories, enabling creation of 5-year data. For more detailed information about the 2016 changes, see the 2016 American Community Survey Content Test Report for Computer and Internet Use located at <https://www.census.gov/programs-surveys/acs/methodology/content-test.htm> or the user note regarding changes in the 2016 questions located at <https://www.census.gov/programs-surveys/acs/technical-documentation/user-notes.html> . For more detailed information about the crosswalk, see the user note regarding the crosswalk located at <https://www.census.gov/programs-surveys/acs/technical-documentation/user-notes.html> .

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see ACS Technical Documentation ). The effect of nonsampling error is not represented in these tables.

Ancestry listed in this table refers to the total number of people who responded with a particular ancestry; for example, the estimate given for Russian represents the number of people who listed Russian as either their first or second ancestry. This table lists only the largest ancestry groups; see the Detailed Tables for more categories. Race and Hispanic origin groups are not included in this table because official data for those groups come from the Race and Hispanic origin questions rather than the ancestry question (see Demographic Table).

Data for year of entry of the native population reflect the year of entry into the U.S. by people who were born in Puerto Rico, U.S. Island Areas or born outside the U.S. to a U.S. citizen parent and who subsequently moved to the U.S.

Methodological changes to citizenship edits may have affected citizenship data for those born in American Samoa. Users should be aware of these changes when using 2018 data or multi-year data containing data from 2018. For more information, see: American Samoa Citizenship User Note.

The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Accordingly, comparisons of disability data from 2008 or later with data from prior years are not recommended. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the Evaluation Report Covering Disability .

Data about computer and Internet use were collected by asking respondents to select "Yes" or "No" to each type of computer and each type of Internet subscription. Therefore, respondents were able to select more than one type of computer and more than one type of Internet subscription.

The category "with a broadband Internet subscription" refers to those who said "Yes" to at least one of the following types of Internet subscriptions: Broadband such as cable, fiber optic, or DSL; a cellular data plan; satellite; or a fixed wireless subscription.

An Internet "subscription" refers to a type of service that someone pays for to access the Internet such as a cellular data plan, broadband such as cable, fiber optic or DSL, or other type of service. This will normally refer to a service that someone is billed for directly for Internet alone or sometimes as part of a bundle.

"With a computer" includes those who said "Yes" to at least one of the following types of computers: Desktop or laptop; smartphone; tablet or other portable wireless computer; or some other type of computer.

While the 2014-2018 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

#### Explanation of Symbols:

1. An "\*\*\*" entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An "-" entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution, or the margin of error associated with a median was larger than the median itself.
3. An "-" following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An "+" following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An "\*\*\*" entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An "\*\*\*\*\*" entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An "N" entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An "(X)" means that the estimate is not applicable or not available.
