

Orange County Environmental Health

Septic and Well Application Instructions

****Incomplete applications cannot be processed****

- APPLICATION:** Complete with as much information as possible. Incomplete or inaccurate information may lead to delays. *It must be signed by the property owner or delegated representative with documentation.*
- SITE PLAN DRAWN TO SCALE:**
 - a. Existing and proposed property lines, easements, rights-of-way, and buffers with measurements
 - b. Location of all proposed structures, driveways, additions, other future improvements with measurement of the structures and measures to two property lines (minimum)
 - c. Known sources of contamination (septic drain fields, animal lots, fuel tanks, old wells)
- FLOOR PLAN FOR ANY PERMIT APPLICATIONS TO CONSTRUCT A SEPTIC SYSTEM OR WHERE THE IMPROVEMENT CHANGES THE STRUCTURE'S FLOOR PLAN** (not required for Well Permits or Residential Improvement Permits; other conditions apply for commercial projects)

***Preparing for the Soil/Site Evaluation or the Site Visit:**

- Verify** that the email and phone submitted are the best ways to reach the APPLICANT.
- Stake** all proposed structures.
- Mark** property lines and corners clearly and made accessible. If property lines cannot be verified, it will be necessary for the property to be surveyed before a determination can be made.
- Trim** thick vegetation. The area may need to be "bush-hogged" or thinned out. Do not grade or excavate potential soil areas, as it is possible to damage sites beyond use.

* Failure to prepare the site may cause long delays in permitting or may result in a *Notice of Incompletion*.

REQUIRED RESPONSES (ALL FIELDS)

Applicant _____ Email _____

Billing Address _____
