

Men: Don't want kids? Take Control.

I don't want to have a child.

My family is the right size.

Think About Vasectomy.

A vasectomy (va·sec·to·me) is a permanent birth control method for men who don't want to have children. It's a safe, 1-day surgery performed by a doctor. If you're a male age 21 or older, the **Orange County Health Department** can help you get a free to low-cost vasectomy through the NC Regional Vasectomy Program.

About the Program:

- Open to men age 21 or older
- Must live in Orange County
- Sliding-fee scale based on income
- Pre-surgery counseling by a nurse
- 30-day waiting period in case you change your mind
