

**Help protect our furry family members
this summer!**

**Did you know? Mosquito larvae can hatch
in as little as a cap-full of water!**

**Help us help you. By eliminating mosquito harborage around
your home you'll protect dogs from heartworms and
horses from WNV and EEE.**

For more information contact the Environmental Health Department at
(919)245-2360 or <http://www.orangecountync.gov/405/Fight-the-Bite-Ticks-Mosquitoes>
