

Navigation and Transportation Work Group Homework 2

Thank you for your continued participation in the work group process! To prepare for Meeting 3, we will focus more on the solutions, programs, and services discussed today.

In order to create strategic objectives for our work group, **it is necessary to identify the various barriers and facilitating factors we might face in implementing, improving, expanding, or protecting programs, services, and initiatives in Orange County.** Listing these barriers and facilitators will allow us to harness unique opportunities and address barriers strategically over the next five years.

Please take a few moments to write down whatever knowledge you already have on this topic and/or do research to discover additional information. We will review this homework at Meeting 3 in order to prioritize objectives to include in the 2012-2017 MAP.

Some questions to consider:

- 1) As an employee or resident in Orange County, what makes it difficult to develop, improve, or expand navigation and transportation programs, services, and initiatives?
- 2) What makes it easier?
