

Work Group “Homework” #1:

Thank you for your time and participation in today’s Community Engagement work group meeting. Your ideas and input are crucial, and we hope you’re excited about the next steps in this planning process!

To prepare for Meeting 2, please complete this worksheet by describing **services that exist or services with potential to exist** in Orange County. Please focus on programs and services not already discussed in Meeting 1 so that we can gain a more comprehensive understanding of those that are offered in the county. We will discuss your findings at the beginning of Meeting 2.

Some questions to consider in your “Notes” section are:

- 1) Is the program or service adequate in meeting the demand?
- 2) Is the program or service efficiently providing service or duplicating service?
- 3) Is the program or service equitably available to older adults throughout the county?
