

## If a major disaster happens, how will your community handle the first 72 hours?

CERT training provides skills for citizens in communities to perform essential functions until help can arrive following disaster. The series provides approximately 20 contact hours on how to handle emergencies in your community, and provide assistance to neighbors who may be in need.

**While no one can predict when disaster may strike in Orange County, we can build more prepared communities.**

**TRAINING IS OFFERED FREE OF CHARGE**
