

# Link Government Services Center Geothermal HVAC Installation

---

Orange County is updating the current, obsolete HVAC system in its Link Government Services Facility with an energy efficient, sustainable geothermal heat pump system.

<b>Project Name</b>	Link Government Services Center Geothermal HVAC Installation
<b>Cost</b>	\$679,326
<b>Size</b>	Est. 40 closed loop geothermal wells
<b>Groundbreaking</b>	October, 2011
<b>Completion</b>	Spring, 2012
<b>Designer</b>	RNM Engineers, Waynesville NC
<b>General Contractor</b>	Warren-Hay Mechanical Contractors, Hillsborough, NC

## Next Month at a Glance:

The system is complete and is fully operational. The parking lot repair will occur on May 15 through 18, pending weather and other potential construction concerns. Final striping and sealcoating of the lots may be installed on Monday, May 21, after the 2012 Hog Day festivities, in order to protect the integrity and appearance of that installation.
