

Public Market House & River Park

Simultaneous to the Justice Facility Expansion, Orange County is developing a dedicated, covered Public Market House as well as a River Park. Both of these features will be inter-connected to the campus and its parking areas, but secluded from vehicular traffic. The Public Market House will house the County's Farmer's Market. The River Park will eventually be a component of the Eno River Walk system.

Project Name	Public Market House & River Park
Cost	Included in the Justice Facility Expansion Cost
