

FEATURES

From a customizable transit dashboard to on-demand ride booking and trip planning, TransLoc is the tool of choice for staying in control of your transit experience.

transloc.com/app

WHY TRANSLOC?

TransLoc knows your trip is more than just getting on a bus—it's making that doctor's appointment or getting to work on time.

These are the micro-moments that make up your transit experience. TransLoc gives you the freedom and flexibility to move through your day according to your schedule, with on-demand convenience.

Stay informed when expecting a ride!

HOW DOES IT WORK?

Use TransLoc to see services available in your area, plan trips, book rides, and pay for services in-app*.

This is your local transit agency's chosen app for demand-response service. Using TransLoc means the "bus" (car or shuttle) chases you—not the other way around.

Requesting your ride is simple—here's how it works:

- Open the app to see which services are available to you
- Input your destination and book a ride through the OnDemand service
- Or, find what other transit options are available to you using our trip planner
- Based on your transit agency, payment can be made by credit card in the app or via other agency-accepted payment methods*

*where available

Request a ride from your transit agency at the touch of a button.

HOW TO BOOK A RIDE

Follow the steps below to book your on-demand or in-advance ride.

1 Upon opening the app, click the OnDemand option located at the bottom of the screen and choose the service you want to use to book a ride.

2 Confirm your pick-up location and select your drop-off location. These must be within the service's region parameters shown on the map.
Change your pick-up time by tapping "🕒 ASAP" and selecting a new time and date to schedule your ride ahead of time.

3 Select the number of passengers with you and if you need a wheelchair-accessible vehicle. Tap "Request Ride" when ready.

5 Stay informed of your ride status.

4 The first time you use the app, the system will require you to log in or create an account* with TransLoc (the company behind the app).

*This is a free account, and your information will not be shared, however, you will need to include your mobile phone number if you would like to receive text message notifications.
