Confirmed Orange County Cases by: Age

Gender

Data featured in this dashboard is based on the North Carolina COVID-19 Surveillance System (NC COVID), which publishes laboratory-confirmed COVID-19 cases, deaths, and other demographic information. Publishing of NC COVID data is one day behind the publishing of the COVID-19 North Carolina Dashboard. As such, daily counts of confirmed cases may differ slightly.

Confirmed Orange County Cases by: Race

Ethnicity

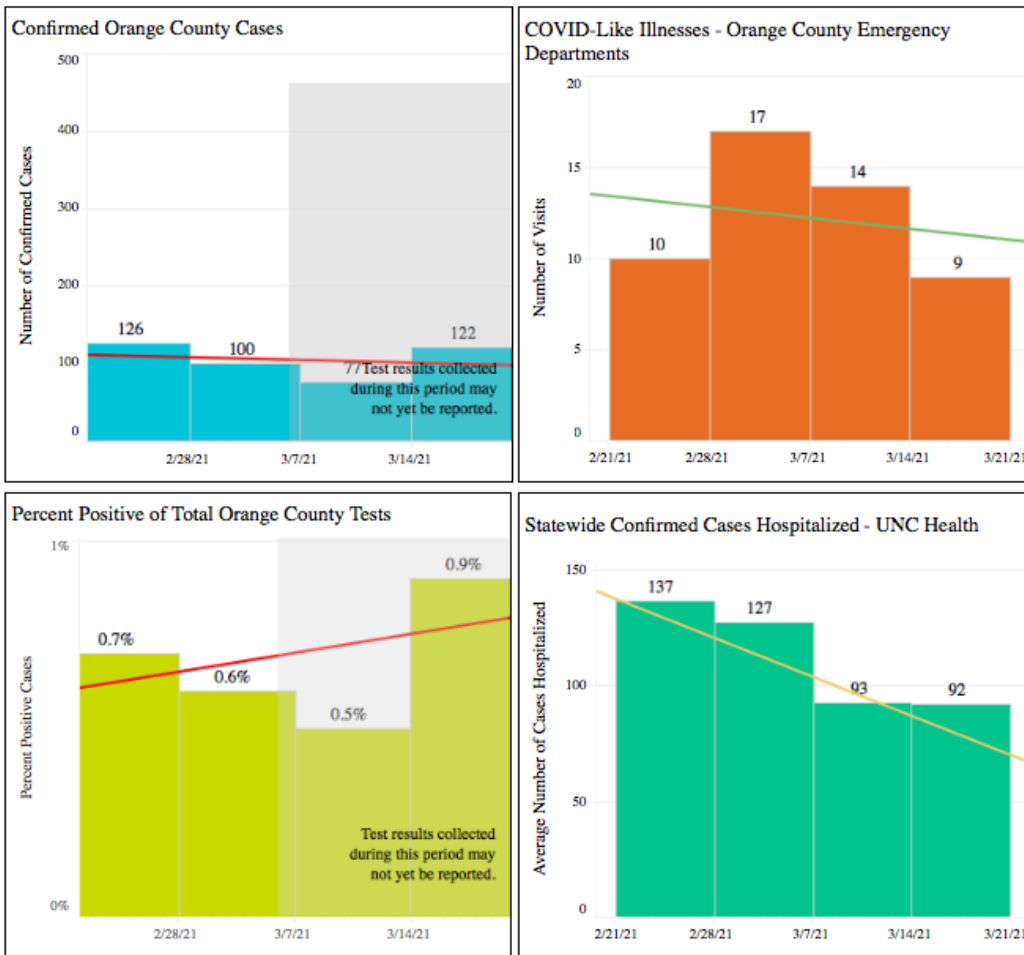

The Orange County Health Department uses the COVID-19 North Carolina Dashboard to update daily case counts and deaths Monday through Friday. Demographic data from NC COVID is updated on Tuesdays and Thursdays. For county case data on Saturdays and Sundays, visit the COVID-19 North Carolina Dashboard at:

<https://covid19.ncdhhs.gov/dashboard>

COVID-Like Illnesses Reported to Orange County Emergency Departments

COVID Trends - Recent 4 Weeks

Daily and Cumulative Confirmed Orange County Cases

Demographic groups with very small numbers have been suppressed to protect resident confidentiality. Race and ethnicity data is missing for approximately 15% to 25% of all confirmed cases. Additionally, the dashboard only includes data from residents that have been tested. As a result, this data should not be used to make generalizations about infection rates for any segment of the resident population.

There will be no Weekly Data Update Press Release on Friday, April 2nd, 2021 due to a holiday.
