

# Do you or your partner have Parkinson's disease?

You may qualify for a research study about triumphs and challenges of hospital care for Parkinson's.

UNC Movement Disorders Center wants to hear your feedback about your experience with a hospital stay. It will inform us how to improve care for patients with Parkinson's disease while admitted to the hospital.

## You may be eligible to participate if you:

- Diagnosed with Parkinson's disease or care partner for person with Parkinson's disease.
- The person with Parkinson's was admitted to a hospital between September 2018 and the end of February 2020 (not for DBS implantation).
- Have access to Internet and Zoom online platform.
- You do not need to be a patient of UNC to participate.

## What will be asked of you:

- Participate one time in a focus group discussion of 8-10 people.
- The focus group will meet once for 2 hours via Zoom.
- Provide us with feedback about your experience while hospitalized.

## What you will receive:

- \$10 Amazon electronic gift card
- Company of others impacted by Parkinson's for 2 hours and opportunity to share experiences
