Are there streams/water bodies on the property? Yes No

If yes, distance of structures and driveway from water (in feet): _____

Are there plants/trees along property lines that front major roadways? Yes No

If yes, width of buffer? _____

Certification and Signatures

NOTE: All trees, stumps, limbs, dirt, other similar green waste, and construction debris are required by law to be disposed of at a certified landfill or ground into mulch on-site. The County forbids the open burning of such debris or the dumping of such debris anywhere other than at an approved landfill site. Failure to properly dispose of such waste shall constitute a violation of the Unified Development Ordinance, potentially causing the revocation of the Zoning Compliance Permit, and subject the contractor/property owner to enforcement action.

I certify that, to the best of my knowledge, the information contained above, and in the supporting documents, is a factual representation of the proposed development. I understand that a Zoning Compliance Permit shall be issued authorizing the activities contained herein and that each new development project requires a new Zoning Compliance Application. I acknowledge that by signing this application, the Orange County Planning and Inspections Department is authorized, pursuant to NCGS 160D-403, to make as many inspections of the subject property as may be necessary to verify that the proposed work outlined herein is consistent with the provisions of all applicable State and local laws, ordinances, and regulations.

By signing this application, I acknowledge and agree that inspectors, zoning officers, erosion control officers, and other staff of the Orange County Planning & Inspections Department have a right, upon presentation of proper credentials, to enter the subject property at any reasonable hour for the purposes of inspection to ensure that development activities outlined in this application are consistent with the provisions of all applicable State and local laws, ordinances and regulations and the terms of the permit.

For all residential construction on bona fide farm property, no NC Building Code exemptions apply. All construction permits are required, to include any accessory building and structures for the residential occupancy.
