Neighborhood Information Meeting Participants

Thank you for providing input regarding Orange County Solid Waste's consideration of the OWASA property on Orange Grove Road for a consolidated Waste and Recycling Center. After considering various factors, the County is no longer pursuing the OWASA property for the project. As such, any activity on that property going forward will be related to OWASA's management of the property, not the County's continued due diligence.

Again, thank you for providing input on the proposal.

Best,

Robert Williams
Solid Waste and Fleet Director
Orange County
